24.5.22

Time: 2 Hr 30 Mins

Max. Marks: 80

MC

93653

Q1.	Choose the correct option for following questions. All the Questions are compulsory and carry equal marks			
1.	VolTE Stands for			
1.	VOLTE Stands to			
Option A:	Voice over Long Term Evolution			
Option B:				
Option C:				
Option D:				
	## # # # # # # # # # # # # # # # # # #			
2.	UTRAN stands for			
Option A:	Universal Transmission Radio Networks			
Option B:	Universal Terrestrial Radio Access Network			
Option C:	Unified Transmission Area Network			
Option D:	Universal Time Radio Access Network			
7,	AN CONTRACTOR OF THE STATE OF T			
3.	Which of the following Stores the User Related Data That is also relevant to GSM Mobile			
	Systems?			
Option A:	VLR STOREST ST			
Option B:	HMR SASSOCIATION AND AND AND AND AND AND AND AND AND AN			
Option C:	GMR STARROWS			
Option D:	SIM SIM			
4.	Generic Routing Encapsulation allows the encapsulation of packet of One protocol suite into			
4.	Generic Routing Encapsulation allows the encapsulation of packet of One protocol suite into payload portion of a packet of another Protocol suite is nothing but			
Option A:	Generic Routing Encapsulation allows the encapsulation of packet of One protocol suite into payload portion of a packet of another Protocol suite is nothing but GRE			
	payload portion of a packet of another Protocol suite is nothing but			
Option A: Option B: Option C:	payload portion of a packet of another Protocol suite is nothing but GRE IP Tunneling Protocol Synchronization			
Option A: Option B: Option C:	payload portion of a packet of another Protocol suite is nothing but GRE IP Tunneling			
Option A: Option B; Option C; Option D:	payload portion of a packet of another Protocol suite is nothing but GRE IP Tunneling Protocol Synchronization Minimal Encapsulation			
Option A: Option B: Option C:	payload portion of a packet of another Protocol suite is nothing but GRE IP Tunneling Protocol Synchronization Minimal Encapsulation Two or more antennas can also be combined to Improove the reception by counteracting the			
Option A: Option B: Option C: Option D:	payload portion of a packet of another Protocol suite is nothing but GRE IP Tunneling Protocol Synchronization Minimal Encapsulation Two or more antennas can also be combined to Improove the reception by counteracting the negative effects of multi path propagation, these antennas are also termed as			
Option A: Option B; Option C; Option D: 5. Option A.	payload portion of a packet of another Protocol suite is nothing but GRE IP Tunneling Protocol Synchronization Minimal Encapsulation Two or more antennas can also be combined to Improove the reception by counteracting the negative effects of multi path propagation, these antennas are also termed as multi element antenna Array			
Option A: Option B; Option C; Option D: Solution A: Option A: Option B:	payload portion of a packet of another Protocol suite is nothing but GRE IP Tunneling Protocol Synchronization Minimal Encapsulation Two or more antennas can also be combined to Improove the reception by counteracting the negative effects of multi path propagation, these antennas are also termed as multi element antenna Array Smart Antenna			
Option A: Option B: Option D: 5. Option A. Option B: Option C:	payload portion of a packet of another Protocol suite is nothing but GRE IP Tunneling Protocol Synchronization Minimal Encapsulation Two or more antennas can also be combined to Improove the reception by counteracting the negative effects of multi path propagation, these antennas are also termed as multi element antenna Array Smart Antenna Sectored antenna			
Option A: Option B; Option C; Option D: Solution A: Option A: Option B:	payload portion of a packet of another Protocol suite is nothing but GRE IP Tunneling Protocol Synchronization Minimal Encapsulation Two or more antennas can also be combined to Improove the reception by counteracting the negative effects of multi path propagation, these antennas are also termed as multi element antenna Array Smart Antenna			
Option A: Option B; Option C; Option D: S. Option A. Option B: Option C; Option D:	payload portion of a packet of another Protocol suite is nothing but GRE IP Tunneling Protocol Synchronization Minimal Encapsulation Two or more antennas can also be combined to Improove the reception by counteracting the negative effects of multi path propagation, these antennas are also termed as multi element antenna Array Smart Antenna Sectored antenna Isotropic Radiator			
Option A: Option B: Option D: 5. Option A. Option B: Option C:	payload portion of a packet of another Protocol suite is nothing but GRE IP Tunneling Protocol Synchronization Minimal Encapsulation Two or more antennas can also be combined to Improove the reception by counteracting the negative effects of multi path propagation, these antennas are also termed as multi element antenna Array Smart Antenna Sectored antenna			
Option A: Option B: Option D: 5. Option A Option B: Option C: Option C: Option C: Option D:	payload portion of a packet of another Protocol suite is nothing but GRE IP Tunneling Protocol Synchronization Minimal Encapsulation Two or more antennas can also be combined to Improove the reception by counteracting the negative effects of multi path propagation, these antennas are also termed as multi element antenna Array Smart Antenna Sectored antenna Isotropic Radiator What is an Access Point			
Option A: Option B: Option C: Option A. Option A. Option B: Option C: Option D:	payload portion of a packet of another Protocol suite is nothing but GRE IP Tunneling Protocol Synchronization Minimal Encapsulation Two or more antennas can also be combined to Improove the reception by counteracting the negative effects of multi path propagation, these antennas are also termed as multi element antenna Array Smart Antenna Sectored antenna Isotropic Radiator			
Option A: Option B: Option C: Option D: S. Option A: Option B: Option C: Option D: 6. Option A: Option B:	payload portion of a packet of another Protocol suite is nothing but GRE IP Tunneling Protocol Synchronization Minimal Encapsulation Two or more antennas can also be combined to Improove the reception by counteracting the negative effects of multi path propagation, these antennas are also termed as multi element antenna Array Smart Antenna Sectored antenna Isotropic Radiator What is an Access Point An entity that provides access to LLC layer An entity that provides access to MAC layer			
Option A: Option B: Option C: Option A. Option A. Option B: Option C: Option D:	payload portion of a packet of another Protocol suite is nothing but GRE IP Tunneling Protocol Synchronization Minimal Encapsulation Two or more antennas can also be combined to Improove the reception by counteracting the negative effects of multi path propagation, these antennas are also termed as multi element antenna Array Smart Antenna Sectored antenna Isotropic Radiator What is an Access Point An entity that provides access to LLC layer			

7.	A Mobile Phone Uses Type of Communication		
	- JPP of Communication		
Option A:	Full Duplex		
Option B:	Half Duplex		
Option C:	Both A and B		
Option D:	None of the Above		
8.	There is a need for certainto avoid the frequency Overlapping in FDM.		
Option A:	Guard Space		
Option B:	Frequency Range		
Option C:	Carrier & PRANCE AND		
Option D:	Attenuator		
9.	Which of the following is the disadvantage of having smaller cells in Cellular System		
Option A:	Less Transmission Power		
Option B:	Only Local Interface		
Option C:	Need of Handover		
Option D:	Frequency Re-use		
W 1 TO 4 10 A 11 A			
10.	IN TCP/IP is a congestion Control algorithm that makes it possible to		
	anialty recover 1 - A D A D A D A D A D A D A D D D D D D		
Option A:	Fast Retransmit and Fast Recovery		
Option B:	Fast Retransmit		
Option C:	Fast Recovery		
Option D:	Slow Start		

Q2,	Solve any Two 10 marks each	
a)	Explain Bluetooth Protocol Stack in detail.	
Partie Santa	Explain the terms PICONET and Scatter net in terms of Bluetooth.	
b)	Explain Various Hand over mechanisms in Details.	
c)	Write a Short Note on UTRAN and UMTS Network	

Q3	Solve any Two 10 marks each	
\$ a) \$ 555	Explain IP Packet Delivery, What do you mean by Agent Discovery and Agent	
33335	Advertisement in terms of Mobile N/w	a depart of the
88600	Explain GSM Architecture in Detail.	
2000 C) 2000	Explain signal Propagation in detail with various effects such as shadowing, Ref	lection,
7588883	Refraction, scatter, multipath propagation	

Q4	Solve any Two	10 marks each
(a)	Write a brief description on Various various applications of mobile device Entertainment.	Generations of Telecommunication, Describe es for Vehicles, Emergency situation, Business,
(b), (b)	Write a Short Note on a) HAWAII b) HMIPv6	A CONTRACTOR OF THE PROPERTY OF THE PARTY OF
(C)	What are the various Wireless LAN Networks	Threats and How we can secure the wireless
